LATEST FROM MONTEVIDEO.

Montevideo, April 29,
Five p.m.

Very few transactions taken place on the Bolsa to-day.

Fomento Territorial—100 shares for July 31; new series at $170. It is calculated that the sum of £110,000 has passed on London by the Arno at 46 to 46¾, and £800,000 frs,, on France at 4.80 to 4.85.

A reaction in gold; and to-day buyers at 10½ to 11.

Yesterday a sale of $32,000 was effected at 11¼.

Bills upon Buenos Ayres were offered to-day at 8½ per cent, but no takers.

16,000 arobes of wool of all classes realised from 26 to 29 reals.

Some little business done in hides and tallow.

Weather fine.

THE AUNIS MAILS.

The French packet arrived yesterday morning bringing few passengers and light mails. The passengers came ashore in a little steamer. She brought several cases of specie, the bulk of which remained in Montevideo.

THE MINISTRY.

Th *Star* says—"There is very little doubt that the battle in the House of Commons on the Irish Church will be fought before Easter."

The *Standard*—"It is the object of Mr. Gladstone to shape his motion in such a form that while the Government cannot possibly accept or pass it by that section of Liberals who wish to keep the Government in office, they may be unable to refuse it their support; hence the delay and difficulty in passing the proposed resolution."

The *Herald* surmises that "there is a hitch somwhere, or why was the resolution prepared with so much care on Thursday not forthcoming at the appointed hour yesterday. We shall, of course have a resolution on Thursday, bnt there is often a long way between placing a resolution upon the table and proposing it for acceptance."

The *Morning Post* says—"There are a variety of circumstances which will tend to equalize the chances in the coming struggle. Independently of the division known to exist in the Liberal camp it is no secret that the question of the Irish Church involves considerations which men whose consistency in pursuing a Liberal policy is, beyond all question, regarded from different points of view."

From the *Observer* of March 22, it appears that Mr. Disraeli intends to recommend the Queen to dissolve Parliament if the Government is defeated on the question of the dis-endowment of the Irish Church. The question is thought by many of the Liberal party to be too important to deal with by an abstract resolution of the House, and particularly by a moribund Parliament. It should be left for the reformed House of Commons to decide.

The land question was almost lost sight of towards the end of the debate—indeed after the able speech in which Mr. Fortescue indicated that the church question was to be the point of issue, no man felt it wise to waste an argument on the land question. It will, however, come on again in a few days, and will be discussed separately on a special motion of Lord Mayo's when the Irish members will no doubt, develope what it is that is really wanted by the Irish tenant, Compensation is a fine principle—just, wise, commercial, unanswerable in argument, perfect in theory, but most difficult to work out in detail if a landlord Parliament is to manipulate. Tenure is the simple mode of securing compensation, without insuring heart-burnings and litigation, and the best men are beginning to feel this, Lord Mayo admits it, Mr. Gregory declared it in his speech, Mr. Gladstone re-echoed it, and if truly understood, I believe they who now oppose it would adopt it. I gather that this will be the idea most favored on the land debate, in conjunction with Mr. Gladstone's view of what real compensation for improvement means.

THE ABYSSINIAN EXPEDITION.

The London papers contain despatches from their correspondents attached to the expedition. An order has been issued by Sir R. Napier that from Antalo onward each officer will be limited to 75lb. weightof bag gage, and each soldier 23 lbs. including bedding. The prospects of the campaign were generally considered more hopeful. The "Daily News" correspondent speaks of the increased efficiency of the Military Train, and the order into which the force as an organized whole, has been brought, the certainty which had been acquired as to many points previously doubtful, and the arrangements with Kassai for supplies and the more practicable character of the route. It appears from the general tenor of the correspondence that the last of the half of the route to Magdala would be traversed in a comparatively short space of time, and that the crisis of the expedition may be reached in a few days.

MISCELLANEOUS.

The late King Louis of Bavaria is said to have left a fortune of £1,720,000.

According to the census returns of 1861, of 2,524,7443 persons residing in the United States who were born in the United Kingdom, 1,611,304 were born in Ireland.

A plaintiff in a breach of promise of marriage action, at the Nottingham assizes, on Monday, obtained a verdict for £1,000 damages.

One of the results of the new law on French press will be the appearence of thirty-six new political papers in the provinces and three or four in Paris.

The 'Court Journal' states that the Queen, accompanied by some of the members of the royal family, intends to visit Germany in the autumn.

A destructive fire broke out at Truro shortly after twelve on tee 14th, by which a number of shops and houses in the centre of the town have been destroyed.

Miss Lockwood, of Betchworth, near Dorking, who died a few weeks since, has left to the Society for Promoting Christian Knowledge the large sum of £28,000.

A petition, signed by the principal names amongst the Democratic party, has been sent to Victor Hugo, at Guernsey, imploring him to return to France.

The liabilities of the Government to Savings Banks, on 20th November, 1867, amounted to £36,792,911 and to Friendly Societies, £1,803,476.

The German exodus to the United States is likely to take a Southern direction. There are already 1,4000 berths taken at Bremen for the steamers that are bound for Baltimore.

The whole of the debate on the 'Alabama' claims which appeared in the 'Times' of Saturday week was telegraphed to New York by the Atlantic cable. The transmission of the report occupied ten hours.

On Saturday week, one of several houses near Temple Bar, which are in course of demolition, fell with a great crash. Fortunately no one was injured. The house was that formerly occupied by 'Professor' Holloway.

There is no truth in a paragraph which stated that Mr. Speke is in a private lunatic asylum. He has arrived at Genoa, and letters from thence give a favourable account of him.

The Saxon Government has just presented to the Chambers a Bill which proposes to abolish the penalty of death, as well as certain corporal punishments still employed in the prisons.

The "United Service Gazette" says: "It is rumoured that a considerable reduction will be made in the Navy Estimates for this year, and that employment for naval officers will become more difficult to obtain than it is at present."

The Queen has been graciously pleased to appoint the Hon. Francis John Pakenham, now Secretary to her Majesty's Legation at Rio Janeiro, to be secretary to her Majesty's legation at Stockholm.

IMPORTANT FROM MONTEVIDEO.

DEBATE IN SENATE.

April 28, 1868.

The paper money question comes up to-morrow for discussion in the Senate, and there are current rumors afloat that the banks will meet with greater support in that House than is generally supposed. A very large and influential petition, in support of the banks and non-specie payment has been got up, but the signers are principally native shopkeepers, almaceneros, and dealers, some French and German houses, we hear, have also signed, but the English, to a man, oppose the measure. So much is written and published in the papers about this question, that people are getting tired of it. The shopkeepers in the fashionable streets have also taken the matter up, and one sees in the shop windows forced currency crinolines and ladies' dresses, forced currency cravats and neck-ties, forced currency hats, caps, and bonnets; in fact, amongst the shopkeepers forced currency is all the rage; money is cheap and abundant; every one has his pocket 'full of paper dollars;' and, of course, the retail trade never was brisker.

Most of the passengers per Arno leave this evening. Mr. Lettsom, they say, will not depart until to-morrow morning. His friends are preparing a small ovation. In justice to this gentleman we must say, that the feeling of regret at his departure is very general. Mr. Lettsom, with all eccentricities, was much respected by the British public of Montevideo. Major Munroe takes charge of the Legation until Mr. Lettsom's successor is named.

Business in general rules very brisk. The coal men and almaceneros are doing a splendid trade. We saw flour bags piled high on the moles, all for Curupaiti. Concepcion, who bought the Georgia Belle, has changed her name—she will be henceforward known as the Curumbu. There is another fine steamer, same owner, called the Cuyaba, loading coal for Paraguay; in fact, from what we see of the trade going on, we are at a loss to say what will become of Montevideo when the war terminates—subtract the army trade from Montevideo, and there remains nil.

The ruins of Borelli's burnt-down premises are now being cleared away, and we suppose, in a few months, stately almacenes will be erected on the site. Building still goes on apace; on all sides we see new houses going up, and as fast as finished they are tenanted: even out at the Union we hear that not a house is to be let. It is really surprising where all the tenants come from. Rents are fully thirty per cent higher than in Buenos Ayres, and yet landlords and house owners assure us that there is no difficulty in collecting the rents.

Mr. Measures, who put up the new market near the Custom House, left for Europe before he saw his stately pile converted into a Custom House deposit—the place is filled with goods and ware; and on good authority we learn that there are sixty-three deposit warehouses filled with goods in bond. Still, the importers are not idle, and they have little cause to complain of business at present. Collections are good; people pay up, and the only rub is that it is in paper money.

We heard of the sale of about 13,000 fine sheep, with transfer of lease of land on reserved terms, but, as far as we could gather, the price was good, and not so low as people in Buenos Ayres are selling. Wools have risen here since the arrival of the packet, but the stock on hand is light, and little expected from the estancias. In a few days the furniture of Mr. Ure Makinlay, of Bates Stokes, will be sold by auction, that gentleman being on his way home to Europe with the French Admiral in the Magicienne. The library, which contains many useful and valuable works, will also be sold.

The City of Brussels is anxiously looked for. There are some passengers here, but the rumours about the number of first-class passengers engaged in Buenos Ayres and the cohort of children going are so extravagant that it is supposed all the Montevidean passengers will for convenience sake be obliged to go as second or third class. The agents ought to send a telegram down about this to assuage the fears of intending "voyageurs."

Although the premium on gold is declining, scarcely a coin is to be seen in the city—paper, and nothing but paper everywhere, and this is now becoming an inconvenience. The agent of the Aunis gives no tickets on shore, but says pay on board, where nothing but specie is received. A man may walk 4 squares in Montevideo without finding a friend who can give you an ounce or two even at a premium. What a shocking state of things.

THESE REPUBLICS.

In a debate which took place in the United States House of Representatives, on the 17th of February, a Mr. Williams proposed the abolition of the legations in New Granada, Bolivia, Venezuela, Guatemala, Nicaragua, Costa Rica, Argentine Confederation, Honduras, Paraguay, and Salvador. "There would," he said, "be a great saving in all this, since one or two Consuls-General could do all the business of Central and South America. The governments of those countries are anything rather than republics, and their population consists mainly of Indian savages."

Mr. Banks thought that admitting that the governments mentioned were not super-excellent, yet it was necessary to have Ministers in those places, not to treat with the people of the countries, but to look after the machinations of other governments in Europe, and particularly in regard to the dominion of the Isthmus of Panama, which is the key of the commerce of the Western hemisphere.

Mr. Kelly supported the views of Mr. Banks, and avowed himself a disciple of the Monroe doctrine.

Mr. Williams produced statistics to prove the insignificancy of the commerce of Central America, and he added that these races were only fit to be governed by a despot, and that they were incapable of receiving any higher degree of civilisation than what they now enjoyed.

Mr. Mungen was pleased to hear his ethnological theories confirmed by Mr. Williams, who had previously combatted them; and he recalled to the historic recollections of the Assembly that the Celts had formed the republics of San Marino, Greece, and Rome; "and what," asked Mr. Mungen, "has the Anglo-Saxon race founded?"

Mr. Williams suggested the United States.

Mr. Mungen denied the statement, and affirmed that it was the Celtic race who had founded that republic.

A Mr. Brooks then proposed that the United States should have a legation at Rome, and the discussion for a moment sunk from national into religious prejudices.

"The truth is," says the correspondent of a Chile paper we quote from, "the people in the United States know nothing of America beyond the Rio Grande, all the rest is to them 'terra incognita;' and the ignorance increases as we mount the scale into the seat of legislation; for to be a grand politician in the United States, and to gain elections, the last thing that is required is general knowledge. 'Give my kind regards,' says a fellow, 'to my cousin, for I hear you are going to Lima.' 'And your cousin, whereabouts is he?' 'In Buenos Ayres!!!' There are many educated people in the United States, but they do not much mix in politics. The Indians savages of the South American Republics should really subscribe for a good geography written in English and present it to the representatives of the United States Congress."

We may add for our own part that it would not be amiss to send a few copies of the same geography book to England.

EDITOR'S TABLE.

The Aunis arrived from Montevideo yesterday, bringing the European mails, a summary of whose contents we have already given, and we publish to-day full extracts from our usual files of European papers. Among the passengers that came up in her from the sister city were Mr. and Mrs. E. T. Mulhal, Messrs. Pequin, Sassenberg, Barclay, &c. She brought 100,000 patacons for Mauá Bank here.

The City of Brussels leaves to-morrow with a full cargo, and as many passengers as she has got accommodation for, no berths being left for passengers from Montevideo or Rio. Among her passengers we understand there are no less than 45 children, which may somewhat retard her speed, or else she is likely to beat the packet. Her agents have been obliged to refuse cargo enough to fill another steamer as large as her, and have proposed to Messrs. Tait either greatly to increase the size of their steamers, or make two trips per month.

Our worthy Consul in Rosario, Dr. Hutchinson, has taken his passage home in the City of Brussels, having left the Rosario Consulship in charge of Captain Thompson. Mrs. Hutchinson, whose health, we are glad to hear, has greatly improved, does not accompany her husband, who only goes on a short visit to his native shores—on private business—in connection, as we understand, with the changes that are soon expected to take place in the 'personel' of our Consular establishment in the Plate. Our best wishes for his success accompany him, and we hope that on his return we may have the pleasure of congratulating him on having obtained a well-deserved promotion, as a just recognition of his valuable services while in charge of H.B.M.'s Consulate in Rosario.

The Municipal Board, which is giving proofs of its utter and hopeless inefficiency for doing any good, where it is so much needed, has awoke from its apathy to commit a wanton and manifest injustice, by passing a resolution at its last sitting, ordering the closing up of the Protestant cemetery, within six months, and while the Recoleta Cemetery, which is so indecently crowded as to be a crying shame to a civilised country, is allowed to remain open, the Protestant Cemetery is to be summarily condemned, and the whole Protestant community to be put to the inconvenience and expense of providing of a sudden a new burial-ground, in order to favor some petty private end. We trust, however, that the foreign element in this city will manfully stand up for its rights, and not allow the 'ipse dixit' of an 'effete' pack of old women to ride roughshod over them.

We have received by the French steamer a copy of the despatch of H. M. Ambassador at Constantinople relating to the cholera conference at Constantinople. We shall again have occasion to refer to this valuable document, but in the meantine we may mention that the conference declines to pronounce an opinion on the origin of the disease; but the seat of the disease it most distinctly traces to India, although the peculiar locality is not fixed, and the old opinions in reference to the delta of the Ganges are abandoned. The disease is endemic in India, and from there radiates in epidemic streams that have spread over the world. The conference has declared that the cholera is transmissible from man to man, but the mode of infection is peculiar, as absolute contact is not in all cases necessary to the propagation of the disease, which mainly arises from the impregnation of the air or water due to the sufferers from choleraic diarrhœa who are able to move about and who to all appearance are healthy. The period of the incubation of the disease when the patient is once infected is probably not more than a few days. The diarrhœa seldom lasts more than eight days before the decided indications of cholera are apparent. We may add that the conference recognizes the diffusion of cholera poison by clothing, houses, ships, &c. and that its effects are intensified by unhealthy local conditions, and particularly by decomposing organic and excrementitious matters. The date of the despatch we quote from is October 1866.

Complete tranquillity seems to have been restored in Rosario and throughout the province of Santa Fé. The faint cries that might still be heard a week ago of Viva Elizalde, are completely drowned now by the more popular shouts for Urquiza, and even Cabal says that he has been obliged to bow to public opinion, and place all the influence at his disposal at the service of the great Entre Riano Chieftain. The arrival in Rosario of the Rev. Mr. Combe from Patagonia has revived among English residents the idea of establishing a Consular Chaplaincy, a most desirable thing, but one which seems to meet insurmountable difficulties towards its realization. The Rev. Father Leahy had also arrived in Rosario, from San Pedro.

From the upper provinces we hear that the two National Commissioners, Gen. Taboada and Sr. Lafuente have come to loggerheads, and a late number of the "Norte," a periodical recognised as the organ of the Taboadas launches forth the most virulent invectives against Sr. Lafuente. The cause of all this row seems to be connected with the late revolution in Rioja, but we do not think our readers feel sufficient interest in the local politics of those distant regions to care to follow us through the intricacies of petty party warfare, and we therefore content ourselves with merely alluding to the news which fill several columns of the "Tribuna" of yesterday.

According to the same authority we learn that at the meeting of electors for President which was summoned for Tuesday night, twenty one attended who signed a manifesto in support of the Sarmiento-Alsina ticket. The seven remaining who were not present owed their absence to illness, or being out of town.

The beautiful new market in Calle Florida, between Calles Cordova and Paraguay, is already in a state of transformation into Customs deposits. Mr. Edward Madero, the owner of the property, has made his arrangements with the Customs authorities, and will be able to receive goods in the new deposits on the 1st of May.

Our enterprising friends, the Messrs. Coffin & Son, enabled us yesterday to witness a most satisfactory exhibition of the two new fire engines manufactured by their firm for the Provincial Bank and the Mercado del Plata. The trial took place on the beach, in front of the Captain of the Port's office. One of the engines was located near the water, with a sucking hose on one side and a leather hose connecting it with the other engine, placed in the Paseo Julio, at a distance of about sixty yards; and when the word of command was given to the men at the engine to begin, a jet of water came from the upper engine steady and with great force, reaching to a great height in the air, and covering over fifty yards of ground. Several people who had been with us invited to attend, among which some of the Bank Directors, expressed themselves highly pleased with the result of these useful engines, which, for compactness, elegance, and power, are unequalled by anything hitherto seen in Buenos Ayres. Each engine, with its corresponding suction hose, long enough to reach an algibe, and 250 feet of leather hose copper rivetted, will not cost over 1,500 silver dollars, which seems to our unpractical ears a very moderate price. We sincerely congratulate the Messrs. Coffin & Son for the very satisfactory manner in which they have fulfilled the commission entrusted to them.

A correspondence between our Consul, Mr. Parish, and Don J. José Mendez, Chairman of the River Plate Navigation Company, has seen the public light in the columns of the *Tribuna* of yesterday. Mr. Parish addresses a letter to the directors of the above company complaining that no attention has been paid to his recommendation in the case of Captain M'Nevins, who had been dismissed by the directors contrary to the provisions of English maritime laws, and that the anomalous state in which the company found itself, ignoring its obligation of submitting to English law, though navigating its vessels under English colours, must be put a stop to, and they must desist in future from using the British flag. Mr. Mendez, in his reply, declares that the company has been acting under the advice of English lawyers—that Captain M'Nevins was dismissed for having disobeyed his orders, and thereby entailed unnecessary expense to the company—that the company had wished to arrange the matter through the British Consul, but that Captain M'Nevins had rendered this proceeding impossible by bringing the whole matter before the law courts of the country, and concluding by refusing to recognise the right of the Consul to prevent their using the British flag. We shall revert to this subject more fully to-morrow.

RINCON DE MACIEL RACES.

On leaving Buenos Ayres I promised to tip you a stave about these races, and as really they are the best specimen I have seen of amateur racing in South America, I may as well tell you where the Rincon of Maciel is. I 'tooled' along from Higueritas in my trap to the scene of action in a N.E. direction for about ten leagues, until I got to the San Salvador, going over the finest country I ever saw in my life, either for pasture, water, or wood. Now the races were held between the San Salvador and Maciel rivers.

On the morning of Wednesday, the 15th of April, about 9 a.m., we arrived at the estancia of Wm. Ricketts, Esq., managed by C. J. Ayre, Esq.

The sight of the Union Jack in the distance, and the number of riders we met in top-boots before arriving at the house, carried us back to the 'old country,' and gave us a foretaste of the sport we were to see.

I give you an account of the sport in continuation, but allow me to declare to you that I have never met at any race meeting in South America a better specimen of Englishmen, as gentlemen and sportsmen, or finer horses. Their condition spoke of the trouble their owners had taken with them.

The sumptuous hospitality of our kind host, Mr. C. J. Ayre, cannot be too highly spoken of. If the racing part was good, you may imagine what the little convivial meeting at night was after the day's racing. Fancy sixty-five young Englishmen toasting our beloved Queen, with Jack Buchanan in the chair, Harry Willacy as Vice. It was kept up in the old fashion, until—

"The cock may craw,
The day may daw,
And still we'll taste th' caña tree."

You may judge of the steeplechasing by the severity of the course and jumps: there were some teasers and the 'young 'uns' went at them like bricks.

The course was turf, a mile and a-half long, an oval, with a straight run in.

The first jump was a four foot turf wall. Second, a 'rama' fence, well secured with wire, a regular poser. Third, a water jump of 14 feet, with posts and rails at the take off side. Fourth, a drop fence. Fifth, a bank, a hedge, and a four feet ditch: this was the 'tooth-drawer.' Sixth, posts and rails, particularly well put together, no getting through it, and it was evident seriously meant they should go over it. Seventh, a turf wall.

First Race.

The first race was the Herefordshire Cup, given by Herefordshire men, to be run for over a three mile steeplechase course.

Mr. Loggin's Comet was the favorite, but the night before the race (it is said) that he was kicked by another horse, which broke his leg (?) much to the regret of his numerous backers. After a capital race the cup was won by Mr. John Buchanan's Young Lochinvar, admirably ridden by his owner. Every one seemed pleased that so good and plucky a sportsman had gained the coveted prize.

Mr. Long's Bitter Beer	0
Mr. Long's Alcibiades	0
Mr. Laurel's Rifle	0
Mr. Loggin's Comet	scratched.

The water jump was a teaser, and no mistake; on they came to it—Baron first over, followed by Friar Tuck, who came down under the plucky rider's weight, who was no sooner off than he was on again like a shot, still running second. But this would'nt do Buchanan's splendid-looking chestnut, which he had bought only 15 days before—admirably steered by his owner, ran through his horses over the last jump in the second round. Weight, 12 stone.

Second Race.

Beaufort Cup. Weight 11st. 7lbs.

Mr. H. E. Evans's Sunbeam—owner	1
Mr. Rising's Parrot—H. Willacy	2
Mr. C. H. Miller's General—owner	3
Mr. Waters' Jolly Jack—owner	0
Mr. T. Bennet's Firefly—owner	0
Mr. E. Bennet's Pride of the Way	0

Mr. Vautier's Vicar	0

Mr. Doll's Diablo	0
Mr. Morris's Chignon	0
Mr. Childs' Fitzjohn	0

This was the most important flat race of the day—betting very heavy. The Porongo's horse Sunbeam, of Mormon's fame, was pitted against Parrot and General, and lots of 'ponies' changed hands. There is one feature in the race that I beg to call your attention to, and that is the number of horses running; I do not ever remember so many horses starting in any race—not even on the Buenos Ayrean racecourse. The Porongos gentlemen kept their horse in the dark till the last moment; but at last they backed him like bricks,' taking and giving odds—but truth was out at last, and the betting was very spirited between Sunbeam and General. It was an anxious moment, not a word could be heard until—to the tune of "they come—the row commenced. I was at the winning post, and certainly to my astonishment, Sunbeam came first winning easily; Parrot second, and the General a 'bad' third, the rest nowhere. A protest was entered by the owners of Parrot and General against the starters, the rider of the latter horse being upon the ground clearing his horse's hoofs when the flag went down and the rider of Parrot being left behind at least 20 yards. There is reason to suppose the starters were not experienced ones, as a match was there and then made between the General and Sunbeam, to be run the day after, for $200 mjc. There was the 'devil to pay, and no pitch hot.' The owners of Sunbeam were 'cock sure,' and there was three to two on Sunbeam. The General, however, took the lead, and won in a canter. It is satisfactory to hear that the starters have been disqualified from ever starting horses on an English racecourse again.

'Tally-Ho' Steeplechase.

1½ Miles. Weight, 12 stone.

Mr. Loggin's Sunshine—owner	1
Mr. J. Buchanan's Grenadier—owner	2
Mr. Water's Pat the Dandy—owner	3
Mr. Child's Jealousy—owner	0
Mr. Vautier's Rector	0
Mr. Ayres' Phosphorous	0
Mr. Ellis' Swindler	0

This was the fastest steeplechase of the day, in fact Sunshine and Grenadier were the only two horses in the race. There were no refusals, all the leaps taken flying, excepting where Mr. Child came to grief over the turf wall, a regular "clipper;" but the "Child" was true to time running in the next race.

Monson Stakes.

1½ Miles on the Flat. Weight, 12 stone.

Mr. Ayres' Aries—Harry Willacy	1
Mr. Long's Kangaroo—H. E. Evans	2
Mr. C. H. Miller's Rear Guard—owner	3
Mr. Wyndham's Connaught Ranger—C. Daniels	0
Mr. F. A. Dawes' Royal Mail	0
Mr. Ellis' Captain	0
Mr. Long's Bitter Beer	0

This was a good race; the old ram Aries was the favorite, and, true to his name, he "ramm'd" through his horses at a killing pace winning easily. Very well ridden by Mr. Willacy.

Oriental Steeplechase.

3 Miles. Weight, 12 stone.

Mr. Water's Huntsman—owner	1
Mr. C. Daniel's Viscount—owner	2
Mr. Littlejohn's Robin Hood—owner	3
Mr. Buchanan's Blue Jacket—owner	0
Mr. Ellis' Saunterer	0

The favorites were Blue Jacket and Robin Hood. The more than plucky rider of the latter had two falls, coming in after all a good third. I take this opportunity of congratulating Mr. Waters on winning this race, for certainly he deserved it from the plucky and judicious manner in which he tooled his horse over the course.

Scurry Stakes.
½ Mile Flat. Weight, 11 stone.

Mr. Gibson's Shadow—Mr. Skip... 1
Mr. Bennet's Bridal Morn—owner.. 2
Mr. Miller's Rinconero—C. H. Miller 3
Mr. Long's East Wind—Waters ... 0
Mr. Ayres' Bicho Moro—Harry Willacy 0
Mr. Morris's Chignon—owner..... 0
Mr. Rising's Parrots..... 0
Mr. F. A. Dawes' Royal Mail..... 0
Mr. Doll's Felix..... 0
Mr. Vautier's Curate 0
Mr. Long's Sauce—owner 0

This was the best contested race of the day. Rinconero, formerly Bas Blanc, took a clear lead, went dead lame, but with all came in a good third. Shadow, a plucky and quick little horse, won. You could have covered the three leading horses with a poncho. Shadow has gone into Mr. A. A. Miller's stables, and no doubt he will give a good account of him when he is next seen.

SECOND DAYS RACING, THURSDAY, APRIL 16.

Scratch Steeplechase—3 Mile.

Mr. Buchanan's Bluejacket—owner 1
Mr. C. Daniel's Viscount—owner.. 2
Mr. Littlejohn's Robinhood—owner 3
Mr. Morris's Bumblebee—owner.. 0
Mr. Ayres' Phosphorus—Bridges.. 0

This was a very interesting race, Littlejohn's horse down again, and he into the water, but was no sooner off than he picked himself up, mounted and started after his horses, gaining on them hand over fist. At the water jump, in the second round, he made the finest flying leap of the day. On they tooled to the last jump but one, which was taken by Viscount and Robinhood together, followed closely by the wily rider of Bluejacket. The three horses got into the straight together; then we heard—"Go it, Charley!" "Go it, Jack!" "Go it, Littlejohn!" when Mr. Buchanan won a splendidly contested race amidst immense cheering.

Match between Mr. F. H. Dawe's Lord Palmerston and Mr. Luis Vojet's Bismark—600 yards.

Mr. Vojet's Bismarck—Mr. Skip.. 0
Mr. Dawe's Lord Palmerston—E. H. Evans 0

There was very heavy betting on this race. One of the best amateur riders rode Mr. Dawe's horse. Unfortunately, he rode him on the snaffle, which the horse was not accustomed to, and, being on the left side, 'licked' his horse with the whip in his right hand, which made Lord Palmerston clear outside the flags on the left, Bismark winning. A protest was entered against the winning horse, the owner of Lord Palmerston claiming the race because, on lowering the flag, Bismark ran into Lord Pam. a tremendous foul, or, as they call it in this country, a "pechada." The rider of Bismark confessed it was the case, but involuntary, and, after consideration by the committee, it was decided to be a drawn race, although the owner of Lord Pam. sent his horse back to the flags he had crossed, put him on the course, and galloped him up to the winning post, claiming the race, which was not allowed. Hereby hangs a tale. Mind you, the weights were catch-weights, so that there was no weighing of the riders about the race. Will you tell us whether Mr. Dawes is entitled to the race or not? I beg to take this opportunity of congratulating Mr. Luis Vojet on his sporting propensities, which he showed all through the races, and I think it is to be desired that other foreign gentlemen would follow his example.

Match between Mr. Vojet's Victor Emmanuel and Mr. Willacy's Louis Napoleon—500 yards.

Mr. Willacy's Louis Napoleon 1
Mr. Vojet's Victor Emmanuel..... 2

Lots of "tin" changed hands. This was ridden native fashion, with partidos. The riders appeared determined not to let go until they were threatened to be started by a flag. Louis Napoleon took the lead and won easily.

THIRD DAY'S RACING, 17TH APRIL.

Scratch Steeplechase—Mile and a Half.

Mr. Buchanan's Grenadier—owner 1
Mr. C. J. Ayres Cut Cavendish—Bridge 2
Mr. Davies Sunshine—owner..... 3
Mr. Littlejohn's Robinhood—Waters 0

I must tell you that it was a pleasure to see these young fellows put their legs over the 'pigskin' jockey fashion, with jackets, tops, caps, &c. Away we went to the course, which was half a mile from the house, and from the centre of the oval you could see the whole race. Mr. Buchanan, on Grenadier ran awaiting race, allowed himself to be passed near home by Sunshine and Cut Cavendish: but, coming into the straight, he took the lead, Cut Cavendish coming in second, very pluckily ridden by Mr. Bridger. Mr. Littlejohn's Robinhood, who looked all over a winner, and which we dared to declare we wished, for Mr. Littlejohn's sake, would win, unfortunately came to grief over the last turf wall, giving Mr. Waters an awful 'perl.' Mr. T. Ricketts very kindly took him home in his carriage. We are very happy to state that although Mr. Waters' ribs were very sore next day, he is now all right. I have got so far in giving you a description of these races, certainly, as I said before, the best amateur racing I have seen in South America, and with thanks to Mr. Fred. A. Dawes, Mr. Littlejohn and Mr. Ayre for their very, very kind hospitality, may I take the liberty of suggesting that a tent and enclosure at the winning post for jockeys to dress and weigh in, and horses to be presented should be provided at all the amateur meetings.

I calculate their having been from 700 to 800 people on the course; there were carriages and ladies on horseback, amongst the latter I asked who were the two pretty girls from the "Sunny South" that passed us, and was told that they were Corina and Manuela Lopez, and enquiring further I found out that more hospitable people than Don Manuel Lopez and his wife were not to be found in the length and breadth of the Banda Oriental. I have heard that one of the family is shortly to be led to the hymeneal altar and have the connubial knot tied over her by one of our best fellows in the "Rincon" so may it be and the devil take the hindermost.

National Bonds are decidedly firmer—sellers are reported to be very short, and a squeeze is expected to-morrow, provided the bears do not bring forward a large amount of Bonds. Prices, cash, were 44¼ to 44½ in the liquidation; last sale, 16,000, cash, 44¾ for 30th May, 45¾ asked; 30th June 46½. The public seem to be investing judging by the number of buyers, cash.

Exchange was rumored to have been done at 49¾ on London, though we ourselves know of nothing certain.

Money is gradually becoming easier—several bills done to-day at 1 per cent.; while good pagares for long dates were in great demand. Confidence is returning, and now even the most gloomy allude to the very fine season, and to the prospect that this year's wool will be the best ever sent from the River Plate.

We noticed some suggestions as to avoiding the present uncertainty of quotations in Montevidean Exchange. The transactions of drawing and taking on Montevideo are now frequent, yet merchants and brokers have no guide as to the rate. Looking to the importance of the commerce between the two cities, it would not be amiss if on a certain pillar actual business could be quoted.

The same remarks apply in some measure to all River Plate Securities sold abroad, prices of which should, on the arrival of each mail, be officially quoted.

In the same way at Montevideo gold is quoted in the same moment at various rates. We believe this is owing to their being no special place for gold transactions; however the evil is easily remedied, and we hope our remarks will be acted on.

Our special reporter at the South Plaza notes the following sales—

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence."
The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, 2nd January, 1867.
P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

PURE, SWEET,
COD LIVER OIL.
The most celebrated Chemists and Physicians of all Countries agree in recommending the Oil extracted from the livers of Cod Fish, as being the best remedy that science has yet discovered for the cure of the diseases that affect the
THROAT, LUNGS, AND CHEST.
And long continued experiments in the Public Hospitals of Paris, London, New York, and in this country have proved that pure Cod Liver Oil exercises the most beneficial effects on such diseases as
SCROFULA AND RHEUMATISM.
The great difficulty heretofore has been to procure an article reliable as to purity. The demand in Europe and America exceeding by many thousands of gallons the entire product of all the Cod Fisheries, in consequence of which unprincipled persons have ficoded the markets with Land Oil, Cotton Seed Oil, Linseed Oil, &c., imposing it upon the Public as genuine Cod Liver Oil, greatly to the detriment of health. Our
PURE, SWEET, COD LIVER OIL
Is by special agreement shipped to us by our own Agents, direct from the Fisheries at Newfoundland, and delivered to us under Seal in our Store in New York. At various times, during the last five years, we have submitted our Cod Liver Oil to the
SEVEREST CHEMICAL TESTS,
Made by the first Physicians and Chemists in Cuba, Mexico, Peru, Chile, Rio de Janeiro, &c., who have unanimously declared it to be the purest and best article of the kind ever tested by them, and that it contains
IODINE IN GREATER ABUNDANCE
Than any other Oil they had seen, and this being the life-giving property in all Cod Liver Oils, it becomes evident that the sick will find in ours a more reliable remedy than in any other.
To hasten the cure of all throat, lung, and Chest Diseases, our
KEMP'S PECTORAL OF ANACAHUITA
Should be used along with the Oil, as they are prepared so as to act in complete harmony together.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.
1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.
Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.
A newly discovered principle in vegetable medication is secured in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or nouseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.
They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.
PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for geaeral use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in those disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.
THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.
THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.
THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamation, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.
AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.
THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.
THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffron-colored Skins, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, these pills, in doses four to six, will quickly regulate the action of the liver and free the patient from these difficulties. One or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.
In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels ween Croton Oil, Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.
